

HALGAN OIL / WATER SEPARATOR DETAIL

Notes

1. Application

The Halgan Oil/Water Separator is ideal in a range of applications including: Mechanical work shops - Truck & Car wash bays—Fuel depots - Panel beaters - Service Stations - Marinas - Airports.

2. Quality Controls

The Halgan Oil/Water Separator is manufactured using the most modern and technically advanced moulding equipment in the world - the computer controlled equipment guarantees perfect quality control throughout the manufacturing process.

3. Warranty:

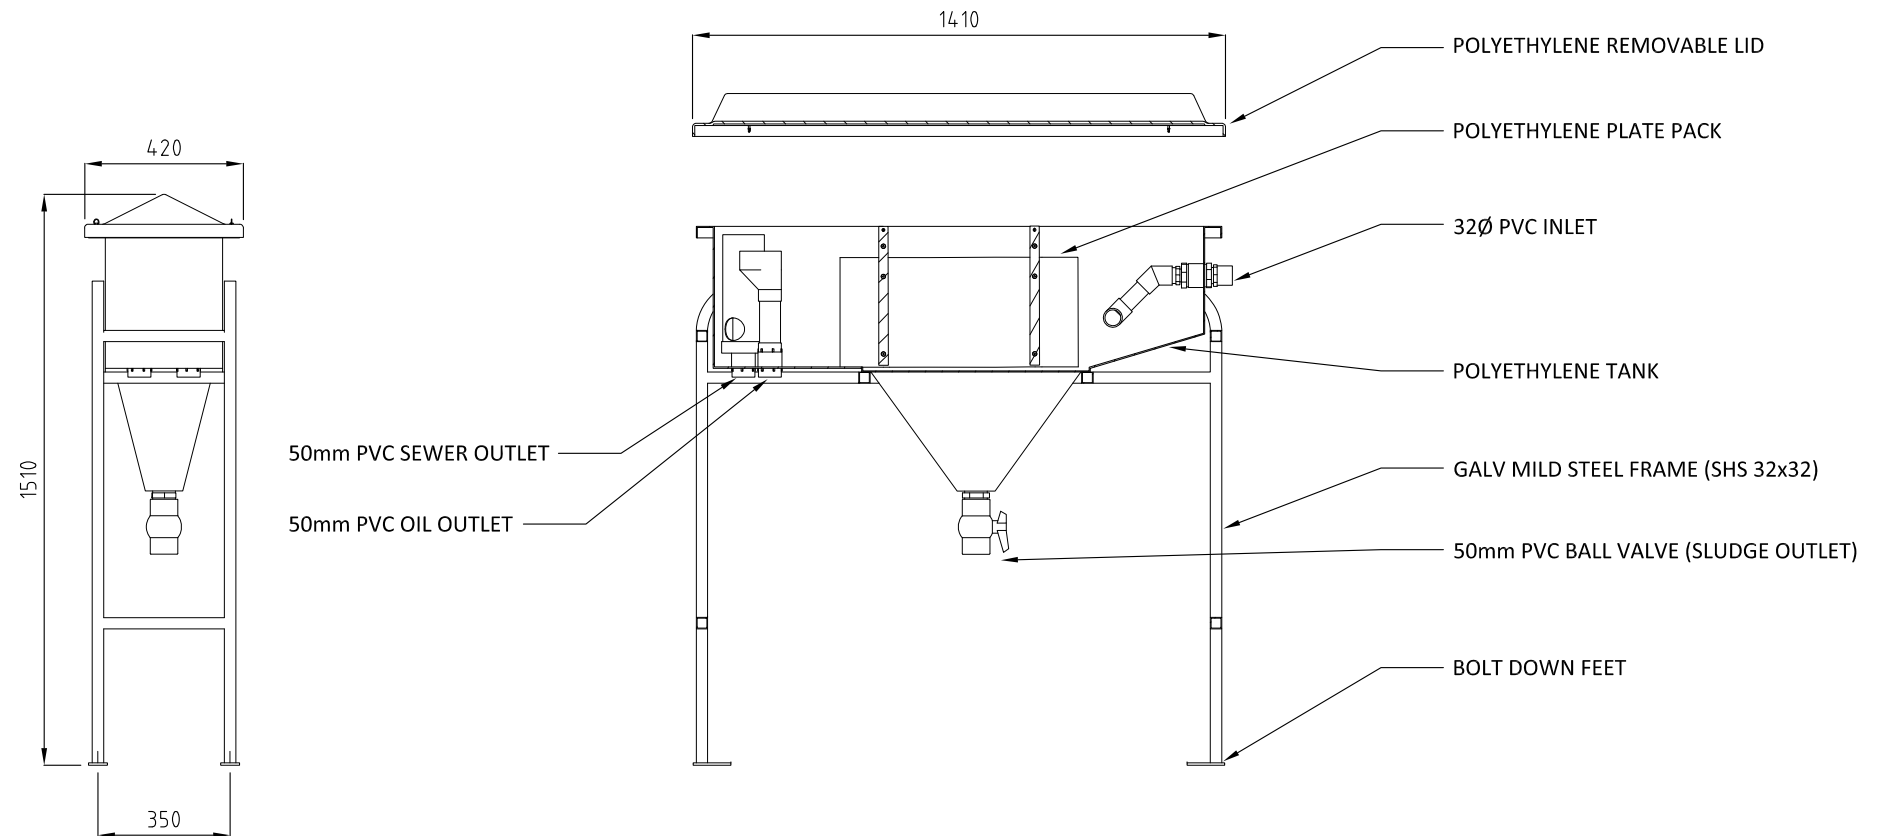

Electrical components are covered by a 12 months warranty. All products are covered by a 7 year manufacturers warranty. Halgan Pty Ltd guarantees all products are free from defects.

4. Pumps

All pumps used are Sydney Water approved Diaphragm pumps. The pump is selfpriming, non-emulsifying. The pump housing is manufactured from corrosion resistant aluminium. The diaphragm is a high grade Nitrile with Nitrile valves and stainless steel seats.

5. Maintenance

Under normal operating conditions the oil/water separator requires servicing every 3 months. The service can be completed by our EPA licensed vehicles and qualified staff. The manual oil skimmer will drain any buildup of oil and deposit it into the appropriate container. The recycled oil has to be disposed at an EPA licensed depot.
