HALGAN PTY LTD

Ecotec Grease Extractor - S100™

Product

The Ecotec Grease Extractor-S100™ is the smallest, lightest and most compact trade waste unit on the market. The S100™ is lightweight and portable, installation costs are reduced by 70%.

Application

The S100™ is smaller and lighter than traditional grease traps. It weighs only 28kgs. The S100™ is ideal for difficult site applications, it fits through a doorway, can be installed inside and 1-2 people can lift it. The Ecotec Grease Extractor –S100 can be installed in butcher shops, cafes, restaurants, bakeries, takeaways and any commercial premises that discharges oil and grease. Some of our customers include KFC, Pizza Hut, McDonalds, Qantas, Caltex, Fox Studios and Coles Supermarket.

Quality Controls

The Ecotec Grease Extractor –S100™ is manufactured using the most modern and technically advanced equipment. The computer controlled equipment ensures perfect quality control throughout the manufacturing process. All products have been tested by a qualified structural engineer to withstand loads imposed during installation, by soil movement, hydrostatic pressure and loads imposed by both pedestrian and vehicular traffic.

Warranty

The S100™ is covered by a 7 year manufacturers warranty. Halgan Pty Ltd warrants all products are free from defects.
